All records relating in any manner whatsoever to the Project, or any designated portion thereof, which are in the possession of the Contractor or the Contractor's subcontractors, shall be made available for inspection and copying upon written request to the Owner. Additionally, said records shall be made available, upon request by the Owner, to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. Said records include, but are not limited to, all plans, specifications, submittals, correspondence, minutes, memoranda, tape recordings, videos, or other writings or things which document the Project, its design and its construction. Said records expressly include those documents reflecting the time expended by the Contractor and its personnel to perform the obligations of this Agreement and the records of expenses incurred by the Contractor in its performance under said Agreement. The Contractor shall maintain and protect these records for no less than **seven (7) years** after the completion of the Project, or for any longer period of time as may be required by applicable law, and upon notice during the pendency of any claims or litigation arising from the Project.
- b. The Owner may further audit any contractor records to conduct performance audits (to identify waste and abuse or to determine efficiency and effectiveness of the contract or agreement) or to identify conflicts of interest.
- c. The Contractor shall at all times during the term of the Contract, and for a period of **seven (7) years** after the end of the contract, keep and maintain records of the work performed pursuant to the Contract. This shall include proper records of quotations, contracts, correspondence, invoices, vouchers, timesheets, and other documents that support actions taken by the Contractor. Documents shall be maintained by the Contractor necessary to clearly reflect all work and actions taken. The Contractor shall at its own expense make such records available for inspection and audit (including copies and extracts of records as required) by the Owner at all reasonable times and without prior notice.
- d. The obligations of the Contractor as set forth under these Audit Provisions shall be explicitly included in the Contractor's contracts with their subcontractors, consultants, or material suppliers to the extent that those contracts relate to the fulfillment of the Contractor's obligations to the Owner.
- e. Costs of any audits conducted under the authority of this section and not addressed elsewhere will be borne by the Owner unless the audit identifies significant findings that would benefit the City. The Contractor shall reimburse the Owner for the total costs of an audit that identifies significant findings that would benefit the City.

Standard Form of Agreement Between Owner and Contractor

other party.

Owner may terminate or suspend performance of this Agreement for Owner's convenience upon written notice to Contractor. If termination or suspension is for Owner's convenience, Owner shall pay Contractor for all Work performed prior to the date of the termination notice. Upon restart, an adjustment acceptable to Owner and Contractor shall be made to the Project Schedule, Contract Time and Contract Sum.

In the event of the termination of the Agreement as a result of the Contractor's substantial failure to perform in accordance with the terms of this Agreement, the Owner may at its sole discretion:

1. Award the contract to the next lowest bidder, if such bidder is willing to enter the contract
2. Cover in the open market
3. Seek any other remedy provided by the Tennessee Uniform Commercial Code
4. Hold the Contractor liable for all damages provided by law, including cost of cover.

17. DELAY IN PERFORMANCE

Neither Owner nor Contractor shall be considered in default of the Agreement for delays in performance caused by circumstances beyond the reasonable control of the nonconforming party, nor shall either party be liable for damages for delay in the Contractor's performance of the Work when such delay is the result of abnormal weather conditions; floods; earthquakes; fire; epidemics; war, riots, or other civil disturbances; sabotage; judicial restraint; discovery of unanticipated hazardous wastes; and inability to procure permits, licenses, or authorizations from any local, state, or federal agency or by any other circumstances beyond their control. Should such circumstances require the Contractor to stop the Work for a period of **thirty (30) consecutive days**, the Owner, upon written request of the Contractor, shall negotiate a reasonable adjustment to the Contract Time. However, should such circumstances cause either the Contractor or the Owner to be unable to reasonably provide the supplies, materials, equipment, or services required, or perform the Work according to the requirements of the Agreement, the Owner may, at its sole discretion, terminate the Agreement.

For delays in performance by Contractor caused by circumstances which are within its control, and when such delays in performance meet at least one of the following conditions: 1) the total of all such delays in sum equals or exceeds the Contract Time for completion as set forth in **Attachment E**, Project Schedule or 2) such delays result in stoppage of the Work for a period of **thirty (30) consecutive days**, the Owner may, at its own discretion, provide a written notice to the Contractor of its substantial failure to perform the Work in accordance with the Agreement, and such delay shall be documented on the Contractor's Project Performance Evaluation form. Said form shall be completed at the conclusion of Project and acknowledged by both Owner and Contractor. Completed form shall be retained by Owner for a period of **seven (7) years** and reviewed prior to selection for City projects.

Owner and Contractor also agree that the discovery of unanticipated hazardous materials may make it necessary for the Contractor to take immediate measures to protect health and safety and will compensate Contractor for any

equipment decontamination or other costs incident to the discovery of unanticipated hazardous materials.

Contractor agrees to notify Owner when unanticipated hazardous materials or suspected hazardous materials are encountered.
