DEPARTMENT OF TRANSPORTATION
CONTRACT - CITY OF CHATTANOOGA
(MAINTENANCE OF STATE HIGHWAYS THROUGH MUNICIPALITIES)

This Agreement made and entered into by and between the State of Tennessee, acting through its Department of Transportation, hereinafter referred to as the Department, and the City of Chattanooga, hereinafter referred to as the City.

WITNESSETH:

WHEREAS, T.C.A., Sections 54-5-201--203 provide that the Department is responsible for the maintenance of the streets in municipalities over which traffic on State highways is routed and may enter into contracts with municipalities relative to this requirement where a municipality is organized for the care of its own streets, on a reimbursement basis; and

WHEREAS, the City is organized for the care of its own streets, and the parties want to enter into an agreement to provide for the maintenance of those sections of streets hereinafter itemized.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

The City shall perform street maintenance on the hereinafter identified sections of City streets over which traffic on state highways is routed, for the period of time beginning July 1, 2013 and ending June 30, 2014.

The work performed by City shall consist of those activities designated in the "Guidelines Covering Maintenance of State Highways through Municipalities", a copy of which is attached hereto and incorporated by reference as "Exhibit A". "Eligible items" are described on Exhibit A.

The street area to be maintained by City shall include the roadway only from curb to curb where curbs exist or to the shoulder lines where curbs do not exist, and will include the eligible grass control and the eligible litter removal activities.

The Department agrees to reimburse said City in the amount actually expended for street maintenance, not to exceed a total of \$0.15 per square yard of area routinely maintained, swept or flushed, and the Department agrees to reimburse said city for the eligible grass control activities and the eligible litter removal activities, not to exceed the number of cycles and the price per acre or mile, as described on "Exhibit A" page 2.

The City/County shall maintain work zone traffic control and all traffic control according to the requirements of the State of Tennessee's currently adopted edition of the Manual of Uniform Traffic Control Devices (MUTCD) defined under the Rules of Tennessee Department of Transportation Chapter 1680-3-1.

CONTRACT - CITY OF CHATTANOOGA
(MAINTENANCE OF STATE HIGHWAYS THROUGH MUNICIPALITIES)
Page 3

The Department will not be obligated to reimburse the cost for repairing sections of State highways damaged as the result of the activities of any public or private utility.

The City will furnish the Department with itemized monthly sworn statements by the 20th of each month for work performed the previous month, setting out in detail the amount expended for labor, equipment, materials and shall furnish copies of receipted vendors invoices for materials used. If a contractor or contract labor or contract equipment rental is used on the above state highways the City agrees to furnish a detailed invoice from the Vendor for work performed. In no event will accounts be paid which were incurred more than sixty (60) days prior to submission to the Department unless an extension of time has been requested by the City and granted by the Director of Maintenance. The City hereby submits to the Department, a statement showing the wage scale by classification proposed to be paid, with the Department's equipment rental rates to be charged, identified as "Exhibit B", attached hereto and incorporated herein by reference, which exhibit shall be subject to approval of the Department. The Department agrees to pay monthly bills as soon after receipt thereof as it can be checked and warrants issued. The Department will be furnished a work report by the City, which will detail the work performed by activity including the quantified units of measure, as identified in Exhibit A, to correspond to the requests for reimbursement of each activity submitted. The City's failure to comply with this requirement shall relieve the Department of any obligation to reimburse the City for the subject work.

Prior to the beginning of non-routine maintenance work, the City shall notify the Department of its intentions in writing, and shall give the Department an opportunity to inspect the sections of State highways proposed to be maintained. During the time such maintenance work is being performed, the Department shall have a right to inspect said work and the City hereby agrees to carry out such instructions as may be given by the representatives of the Department making any such inspection. The City's failure to comply with this requirement shall relieve the Department of any obligation to reimburse the City for the subject work.

The City agrees to comply with all applicable federal and state laws, rules and regulations in the performance of its duties under this agreement. The parties hereby agree that the failure of the City to comply with this provision shall constitute a material breach of the agreement and may subject the City to the repayment of all damages suffered by the state and/or the Tennessee Department of Transportation as a result of said breach.

The City shall, upon request, show proof of such non-discrimination, and shall post in conspicuous places, available to all employees and applicants, notices of non-discrimination.

The City acknowledges that it has total and complete responsibility for appropriate maintenance of the designated streets.

The Department, by the execution of this agreement, does not assume any liability for damages caused to persons or property by reason of the City maintaining said sections of State highways, or by reason of the City's decisions regarding whether and to what extent a street should be maintained.
