Recommendations Regarding Temporary Usage Request

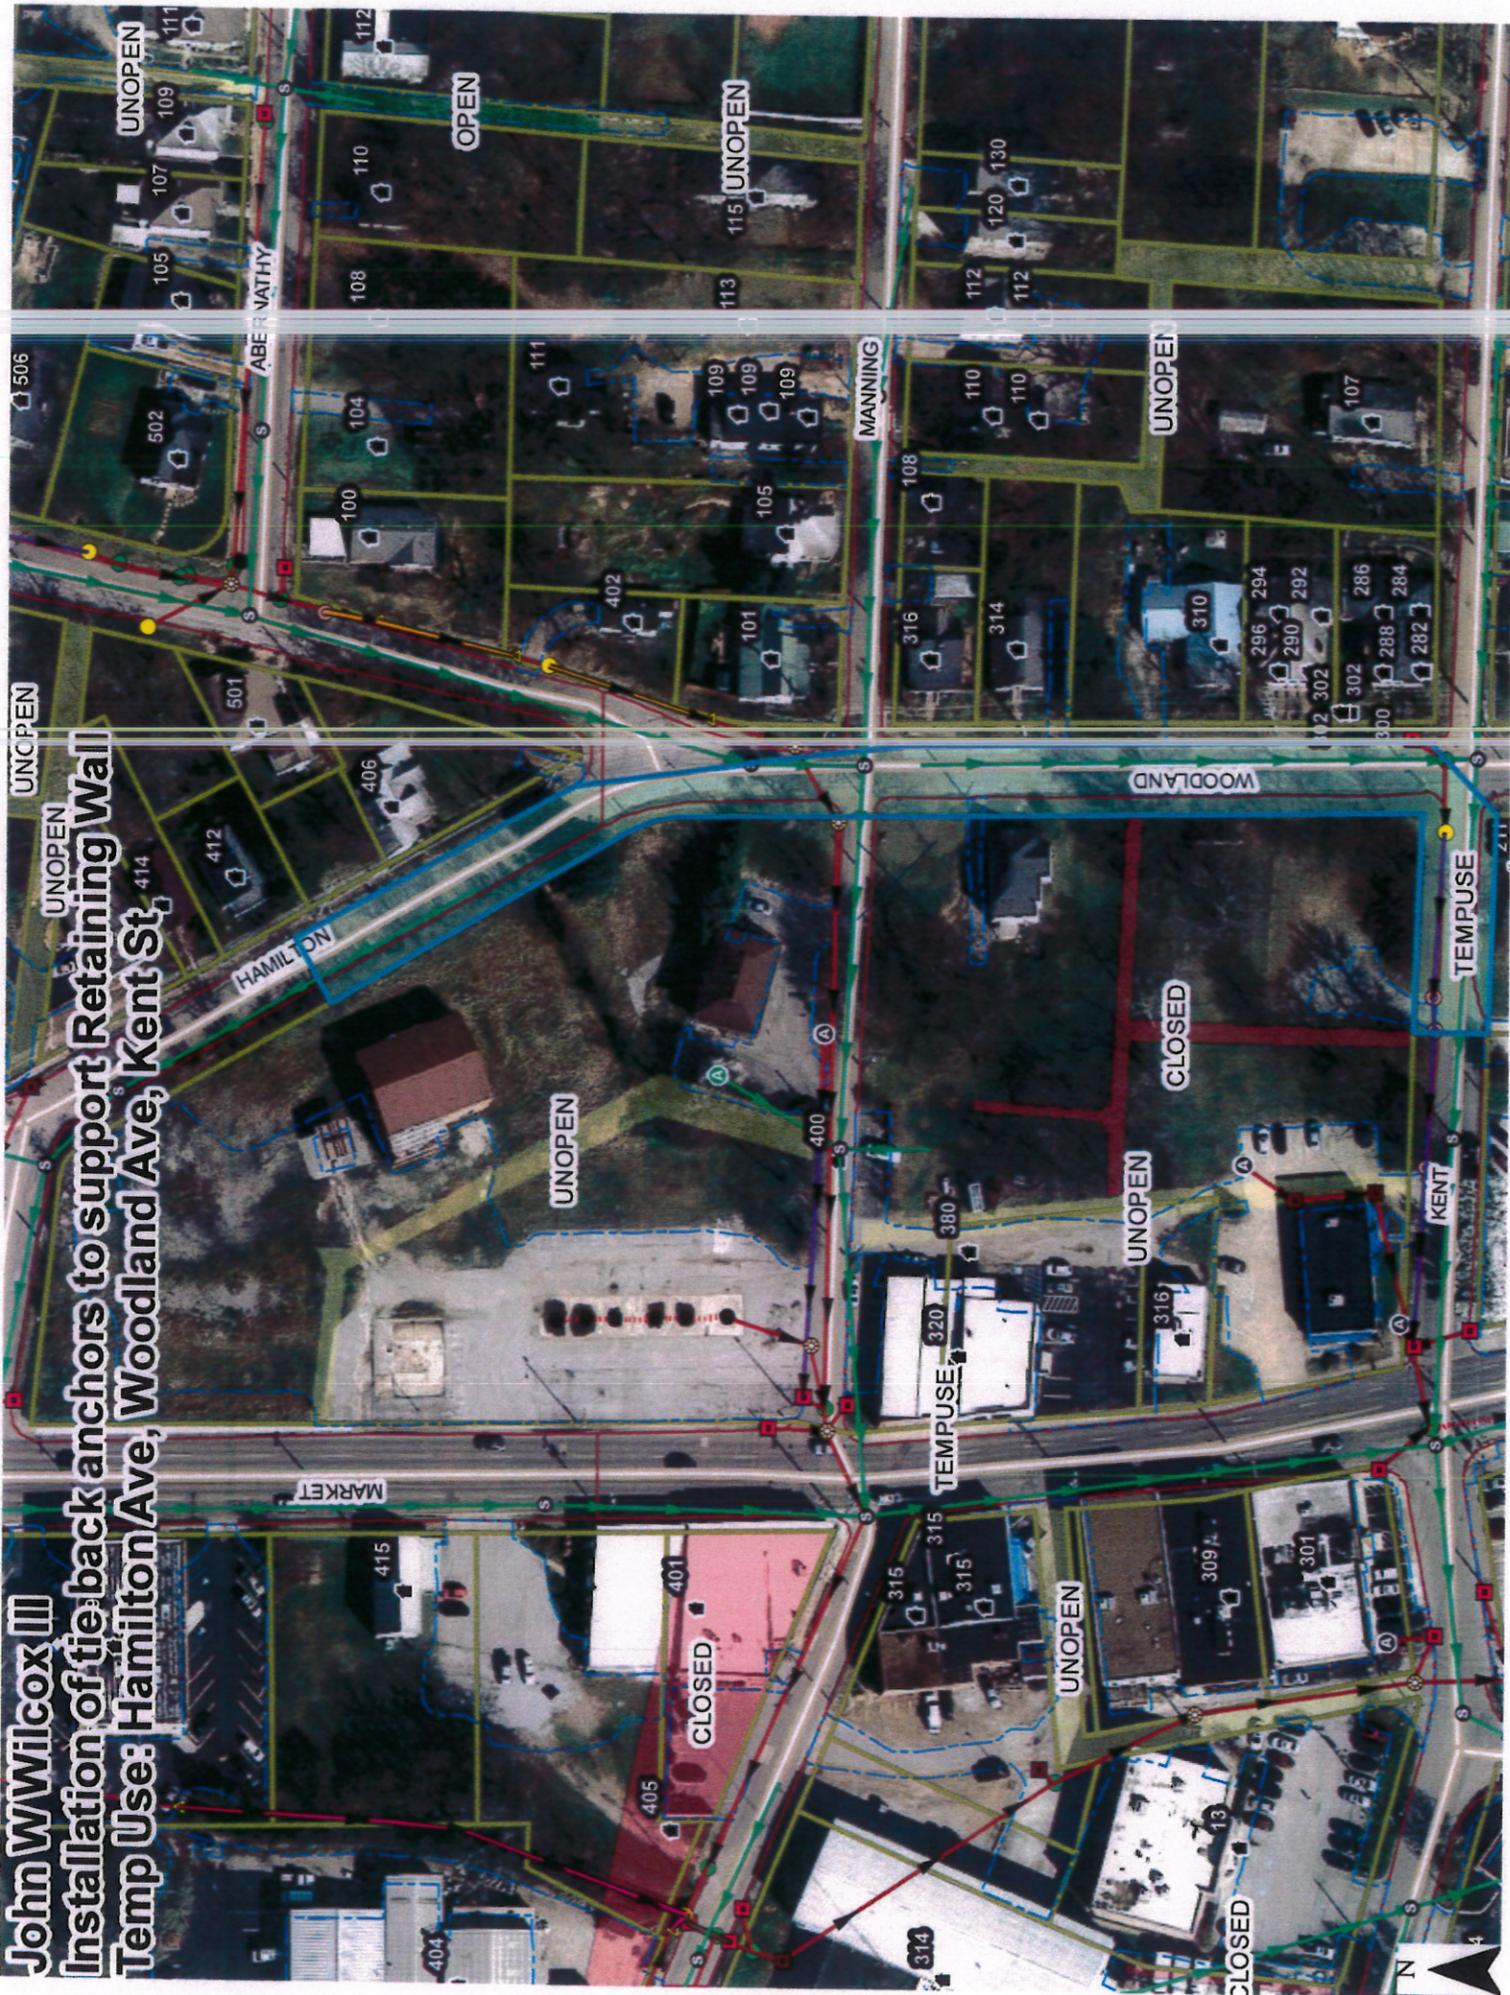

I have completed my review of Mr. Wilcox's request regarding the Temporary Usage of the rights-of-way of Hamilton Avenue, Woodland Avenue, and Kent Street for the installation of tie-back anchors to support retaining walls as shown on the attached maps. My comments are as follows:

- A request will be made for a franchise agreement with the city of Chattanooga for the installation, repair, and maintenance of retaining wall tie-back anchors under a portion of the rights-of-way of Hamilton Avenue and Woodland Avenue.

After review, granting this Temporary Usage does not conflict with the public's interest. Therefore, I recommend that the request for ***Temporary Usage be granted subject to the following conditions:***

- Subject to permit approval by the Land Development Office.
- Temporary usage will be in effect until the franchise becomes operative or for a maximum of 120 days.

John W Wilcox III
Installation of tie-back anchors to support Retaining Wall
Temp Use: Hamilton Ave, Woodland Ave, Kent St,

The design of the retaining wall for Publix at North Market will be a Soldier Beam and lagging wall design with ground anchor tiebacks. The beginning depth of the tiebacks will vary depending on the height of the wall, but in general will start at approximately 10 feet below finished grades of Hamilton and Woodland Avenue. The ground anchors will be drilled into the soils at a 15 degree downward angle to lengths determined by the design engineer. (30 to 35 feet). The methodology of installing the anchors is described below. As well, attached is a more detailed explanation of the system.

- 1) Drill a hole measuring approximately 6 inches in diameter to the design length
- 2) Install double corrosion protected strand anchor (with pvc grout tube a.k.a "tremie pipe") in hole
- 3) Pressure grout anchor with neat cement from the bottom of the hole up through tremie pipe
- 4) Once grout has reached sufficient strength (typically about 3 days later) test anchor and lock off at design load
- 5) Resume excavation to bottom of wall once anchor is locked off

Re: North Market Publix
MAP Engineers Project No.: 12-152

Dear Mr. Payne,

On behalf of Publix Tennessee LLC c/o John W. Wilcox III, please consider this letter a request to apply for a franchise agreement with the City for the installation, repair, and maintenance of retaining wall tie back anchors under a portion of the right-of-ways of Hamilton Avenue and Woodland Avenue, as part of the construction of the proposed Publix on North Market Street. Please consider this request in conjunction with the previously submitted temporary usage permit request for the above mentioned work.

Please contact me at 423-855-5554 with any questions regarding this request.

Sincerely, -
