Subject: Recommendation of Award
DuPont Pump Station Basin Improvements – Phase I
City of Chattanooga
Contract No. W-12-026-201
CTI Project No. C13029-2-01

Dear Dennis:

Enclosed is the certified Bid Tabulation of bids received on the subject project on February 4, 2016.

Three bids were received; however, the bid submitted by Layne Inliner was withdrawn following a formal request submitted by Layne Inliner and accepted by the City.

The remaining bids were reviewed and entered into the attached tabulation of bids. The apparent low bidder at \$5,448,802.00 was:

Chase Plumbing & Mechanical, Inc.
6112 Airways Boulevard
Chattanooga, TN 37421

The second bidder was SAK Construction, LLC, out of O'Fallon, Missouri, at a total bid of \$9,892,195.00. The Engineer's opinion of probable cost was \$4,933,208.

A thorough review of Chase's bid and bid submittal documents have been made by CTI and all appears to be complete and in order. CTI also contacted an extensive list of references for both Chase and their proposed subcontractors. While Chase's preferred subcontractor for the speciality CIPP work was not accepted by the City, Chase submitted an alternate subcontractor that did fully comply with the five (5) years of experience requirement.

CTI therefore recommends award of the subject contract to Chase Plumbing & Mechanical, Inc., as the lowest responsible bidder.

Sincerely,

Allen D. Stephens, P.E.
