Chattanooga, Tennessee
July 31, 2007
6:00 p.m.**

Chairman Page called the meeting of the Chattanooga Council to order with Councilmen Bennett, Benson, Franklin, Gaines, Pierce, Rico, Robinson and Rutherford. City Attorney Randall Nelson, Management Analyst Randy Burns and Council Clerk Carol O'Neal were also present.

PLEDGE OF ALLEGIANCE/INVOCATION

Following the Pledge of Allegiance, Police Chief Freeman Cooper gave invocation.

AMEND ORDINANCE 11990

Councilman Benson made the motion to approve this ordinance; Councilman Franklin seconded the motion.

Councilman Pierce stated that this matter has been talked about for several weeks and we are down to the point where we need to move on. He stated since he had the "floor" he would like to recognize anyone in the audience who would like to speak to do so at this time; that it was his thought all Council persons have come to a conclusion as to they way they would be voting. He asked if anyone could act as spokesperson and wants to have a couple words to say to say it at this time.

Sharon Blanks came forward and thanked the Council for allowing time for her to speak. She stated that she works as a communications officer (dispatcher) for the Chattanooga Police Department and expressed thanks to those who have been willing to put forth an effort toward helping employees get a proper raise. She stated they are in a situation where they all have to stand together; that the point of the matter is that they are employees of the city; that it is not just her as a dispatcher, but employees in public works and not just those in fire and police – that they are all "tied together" in some way or another.

AMEND ORDINANCE 11990 (Continued)

Ms. Blanks stated that it has been felt for the last three-to-four-or-five years that they should have been able to get a half way decent raise; that she personally has a mortgage and bills to pay and her income does not accommodate what she has to pay out. She stated she would appreciate it if the Council would take into consideration that some of them have to take care of their parents, have children and have to pay a lot in insurance. She stated a lot of them are "baby boomers" and are getting older; that she would like for the Council to take into consideration the dollar on the hour as taxes, gas and utilities are going up and they can not afford it. She stated she does not know how the outcome will be for the future; that the way she looks at it when the Mayor builds his homeless shelters she might be one of those applying to live there! She again thanked the Council for allowing her to speak at this time.

At this point, Chairman Page recognized Mayor Littlefield for comments.

Mayor Littlefield stated that he gave every member of the Council a four page memo laying out in detail where we came from and how we got to this point. He stated that his heart is with the people gathered here and believes they all feel the same way. He stated that he wants people to be paid fairly and had been working toward that goal for many months. He stated as was pointed out in the memo, he started down this course when he first came into office; that he worked with a number of unions in the city, more than just SEIU. He stated he has been going down the same path with the intent we would conduct a pay study which the Council previously approved some months ago; that \$190,000 was paid for the study after the process of selecting contractors. He stated everyone has been involved; the unions were invited to give comparable data which was passed on to the contractors.

Mayor Littlefield stated that it was never intended that the three percent approved would be the final word in salaries this year; that they actually built in the budget five percent – three percent toward the cost of living increase and two percent held back to fill in the gaps to take care of those low in the market, that is the intent. He stated the pay study should be back in October and we will have quite a discussion when the two percent is distributed; that \$1.5 million will be divided and applied to those jobs behind the market.

Mayor Littlefield continued by stating that he wanted to point out one thing in the memo that was in bold print on the first page, that since 2001, when some of us came to the Council back at that time, it was the last time the city raised taxes.

AMEND ORDINANCE 11990 (Continued)

Mr. Littlefield stated since that time we have held the line and have absorbed \$33,769.653 in budgeted salaries and additional benefit costs. He stated additionally, the city is not a business and can not raise prices and can not increase revenues that much; that we have absorbed all that in that period of time to salaries that have gone from fifty-one percent of budget to 60 percent. He stated action was taken last year to create the clinics and some people at this point are taking them for granted; that the clinics were aimed specifically at those people who make the least. He stated we do not have people that make \$15,000 unless they are part time and a lot of things were talked around.

Mayor Littlefield concluded his comments by stating that the clinics are of benefit to those with the least who do not have to spend money for medical coverage for common medical visits and have increased discretionary income; that those like him who make more can absorb that cost. He stated the clinics are open for everyone. He reiterated that his heart goes out to the people who make the least; that when the study comes back it is his hope that it shows we are not behind in some of those areas. He stated whatever the Council does we will make the best of it and continue "down this road" together.

failed.

2007-2008 BUDGET

Councilwoman Rutherford made the motion to approve this ordinance; Councilman Rico seconded the motion.

Mayor Littlefield stated at the direction of Council, adjustments have been made in the budget by adding \$25,000 for Choose Chattanooga, an effort to recruit retirees to Chattanooga which is a joint effort by the city and county and several other entities to try and capitalize in a new way. He stated we have become a destination for people who are retiring and those we refer to as "half backs" are moving back from the cold north to the warm south; that now as the weather has become more threatening they are looking for a way to enjoy the best of both worlds.

Mayor Littlefield continued by stating that adjustments have been made in the budget to take care of weekend animal control as requested by Councilwoman Rutherford. He stated that the Neighborhood Services budget has been reduced by \$50,000 for distribution of the "Common Ground" newsletter six times a year or every two months. He stated that he did not know if the changes are reflected in the budget before Council members tonight, however since this is first reading he would check for any amendments necessary and recommended for approval next week on final reading and substitute the ordinance.

Councilman Pierce stated he would not be able to support the budget ordinance in light of the first ordinance we had for amending the budget and other things that appeared in the budget; that he thought there was a need to look at it more closely, yet they were not able to come to a consensus. He reiterated that he would not support it.
