To: All Bidders of Record

The contract documents for the above mentioned project are hereby modified as described below and shall be included in the contract. Bidders shall acknowledge receipt of addenda on the Proposal Form.

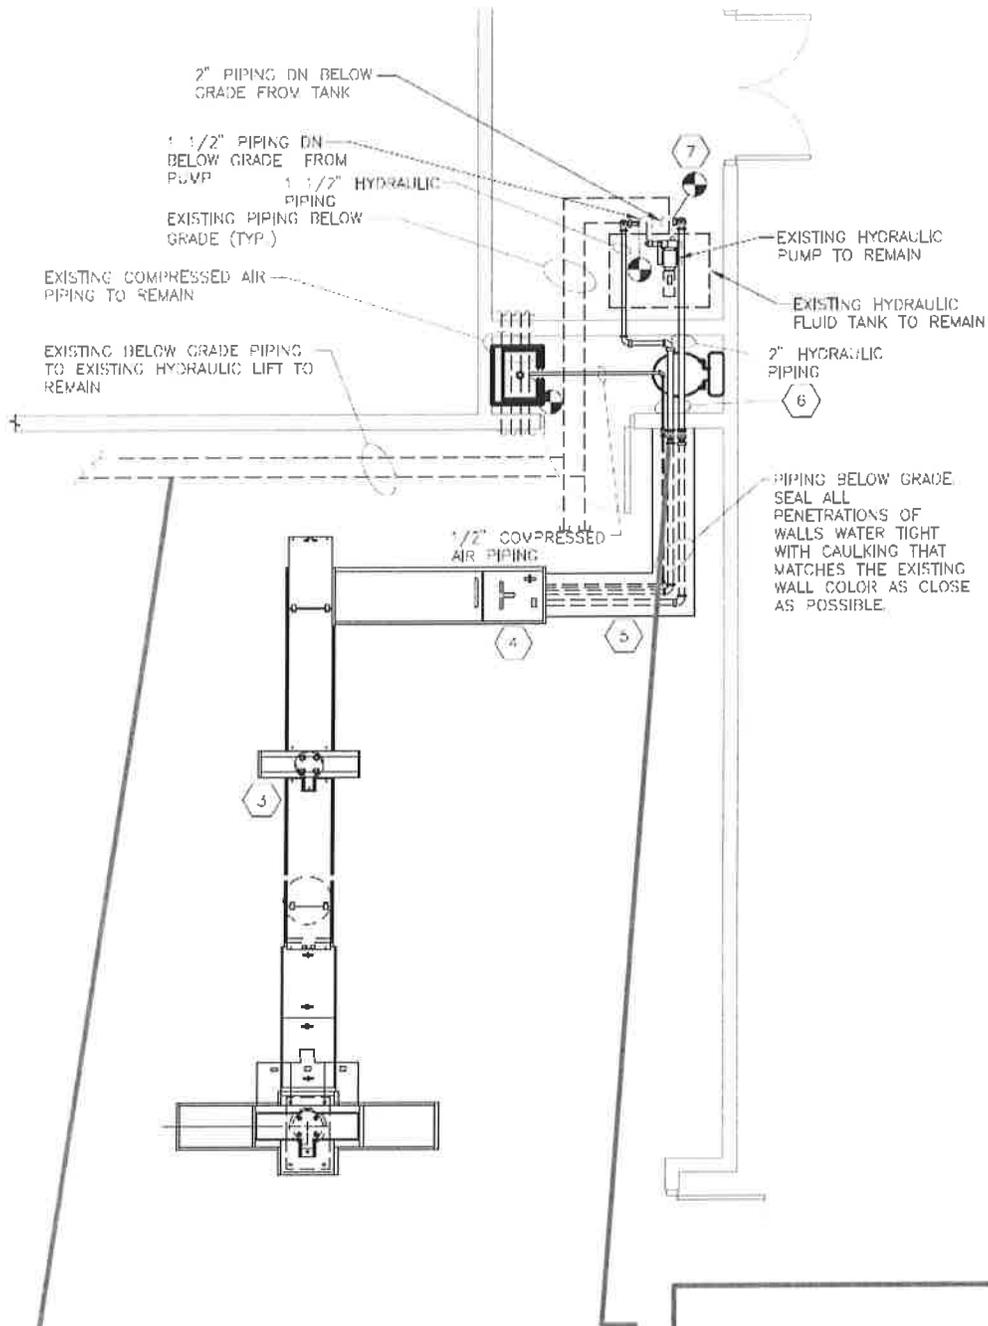

1. ADDENDUM NARRATIVE:

- Include within the bid as an Add/Alternate the costs required for replacing the piping to both lifts in its entirety. Abandon piping below grade as much as possible to minimize saw cuts and concrete replacement. The existing piping that is no longer to be used is to be abandoned below grade after being sealed liquid tight as described on the drawings or demolished as needed should it be in the way. Piping is to follow the routing included within the plans from the mechanical room to the lifts above the bathroom as shown on the plans. Size piping to accommodate both lifts. Piping to existing lift is to branch off of the main piping as the main piping drops below grade. Please see attached not to scale plan for reference. Field verify piping lengths as required. Existing lift controls are to remain as currently installed.
