

STATION STREET — A SHARED STREET EXPERIENCE

The City of Chattanooga, the Chattanooga Parking Authority, and the private businesses along Station Street have collaborated to transform Station Street into a vibrant street that welcomes all people — pedestrians, bicyclists, and drivers.

**Due to public input and consultation with surrounding property owners, there will be no parking on Station Street after construction is complete. No parking will be strictly enforced.**

Public parking is located at the CARTA South Garage, located north of the Choo Choo.

Station Street will be a **shared street** — a street to be shared equally by pedestrians, bicyclists and drivers. Through their design, shared streets calm traffic, welcome pedestrians, and encourage everyone to interact with their environment and each other. Station Street's new paving patterns, lights, and furnishings will transform an underutilized street into a vibrant place to gather, celebrate, and connect. The street will also be able to host special events and festivals.
